

Forklift Spreader Bars

Forklift Spreader Bars - ELME has been proudly operating ever since the year 1974, becoming the largest independent spreader business in the globe. They are a devoted manufacturer of spreaders used for a lot of different applications such as the trailers, handling of containers and swap bodies.

Engineering is done in-house by means of making use of all the most up-to-date FEM tools and CAD systems. The ELME company currently has more than one hundred twenty five staff members. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside around the globe.

The product series of ELME include many spreaders intended for several trailer and container handling operations. Several of their inventory consist of: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers plus a huge array of attachments.

ELME manufacturing and production is performed in a highly automated purpose built factory. In 2008, they created more than one thousand one hundred fifty spreaders by way of utilizing high quality components in order to ensure dependability and excellent standards while offering competitive prices. Major characteristics of ELME include design simplicity, market response and innovative modular spreader concept.
